Summary

I like to solve problems, throughout my learning phase, I have been driven by my intellectual curiosity to find answers to the most pressing questions, this curiosity also drives me to be a lifelong learner.

I believe in creating value for the organisation I'm involved with by taking initiative and improving whatever work I undertake. I have honed my abilities to align with teams to work towards common goals.

Ambitious to kick start my career with globally recognised organisation that asymptotically increases my productivity graph and give me a global exposure to enhance my skills and knowledge for mutual benefits of the organisation.

Strong operations professional with a Bachelor's Degree in Computer Science (pursuing) from JIET, Jodhpur.
